King Engine Bearings - Your Foundation For Success

Founded in 1960, King Engine Bearings is a world-class developer and manufacturer of high technology engine bearings for automobiles, light and heavy-duty trucks, marine, aviation, standby power and other types of internal combustion engines.

King's only product is engine bearings. As a result of its specialization and focus, the company is recognized for producing the highest quality engine bearings available in the market today.

The King line includes OEM replacement rod, main, cam bearings, and thrust washers and its special range of racing bearings.
